SUMMARY

UX/UI and product designer with 8+ years across fintech, ride-sharing, digital wallets and secure messaging — usually the only designer in the room, running the whole loop from research to design system and hand-off. Industrial-design background, plus branding, 3D and direct customer work. Since moving to Germany I have reached B2 German and started building what I design: a live booking website I still run, and a Persian–German vocabulary app with AI-generated cards. I work with curiosity, honesty and care for the details that make an interface feel finished.

WORK EXPERIENCE

Designer & Builder — Own projects

Jan. 2025 – Present · Germany

- Designed and built **marefatpilgrimage.com** solo with AI-assisted development — brand, UX, booking flows, payment and service integrations; live and maintained for 4+ months.
- Built **Leitner**, a Persian–German vocabulary app that generates card backs (translation, article, plural, examples) with AI — bilingual RTL/LTR interface, phase 1 in daily use.

Salesperson

Juni 2025 – Present · Bäckerei Denss BioMarkt

- Daily customer contact in German while searching for a design role; design and development continue in parallel.

Further Education & Self-Study

Okt. 2022 – März 2024 · Germany

- German from A2 to B2; fundamentals of AI and its application in design; expanded tooling and AI-powered workflows.
- Part-time at Illa Solution alongside the studies.

UX/UI Designer & Design Lead

Mai 2022 – Okt. 2022 · Palphone, Australia (remote)

- Led the UX/UI team and strategic planning for a conversational app focused on secure communication (iOS & Android).
- Improved the user journey with new features and a rebuilt navigation around people and conversations.
- Set up a shared component library so both platforms shipped in sync. *Result:* positive user feedback on intuitive usability and appealing design.

SKILLS

UX

User research · user flows · wireframing · prototyping · usability testing · information architecture

UI & Systems

Design systems · app design (iOS/Android) · responsive web · interaction & motion

Brand & Visual

Corporate design · logo · social media · marketing · 3D visualisation

Build

HTML · CSS · JavaScript · React · Next.js · Supabase · AI-assisted workflows

TOOLS

Figma · Sketch · Adobe XD · InVision · Zeplin · Illustrator · Photoshop · ProtoPie · Rhino 3D · 3ds Max · V-Ray · SketchUp · Jira · Miro · Slack

LANGUAGES

Persian	Native
German	B2 · Telc Beruf
English	Working

CORE STRENGTHS

Problem solving · creativity & ideation · quick learning · teamwork · analytical thinking · research & planning · project management

WORK EXPERIENCE — CONTINUED

Freelance UX/UI Designer & Brand Consultant

Nov. 2020 – Mai 2022 · Semedco · TGA Tour & Travel · Aria Travel Point

- UX for a stock-analysis platform: a dashboard that makes complex financial data readable. *Result:* simplified information architecture.
- Branding and corporate design for TGA Tour & Travel, logo for Aria Travel Point, social-media design systems.

UX/UI & Graphic Designer

Apr. 2018 – Nov. 2020 · Phonepay, Iran

- Product design for a digital wallet app for the Iranian market, from flows to interface.
- Owned the visual brand strategy across app, web and marketing. *Result:* increased engagement and consistent visual language across products.

UX/UI Designer

Dez. 2016 – Apr. 2018 · Carpino, Iran

- Designed the driver and passenger apps of a ride-sharing service with real-time tracking.
- Streamlined request, matching and trip states on one live map. *Result:* faster booking and higher user satisfaction.

UX/UI Designer

Apr. 2015 – Dez. 2016 · FanavaCard ePayment Inc., Iran

- UX/UI for a mobile payment app with 1M+ users — money transfers, top-ups and bill payments on iOS and Android.
- Simplified first-run and grouped services by intent. *Result:* faster onboarding and reduced drop-off.

SELECTED PROJECTS

marefatpilgrimage.com — pilgrimage booking website: brand, UX and build with AI-assisted development, payment and service integrations. Live, maintained by me.

Leitner — Persian–German vocabulary app with AI-generated cards, built because no existing app supports Persian. Phase 1 in daily use.

Palphone — secure conversational app for iOS & Android; design lead, navigation redesign and shared component library.

PERSONAL

Driver's licence class B. I ship something most days — and I learn German with an app I built myself.
